

## 1. Description?

- Mint** is an app to keep track of your **budget**. The app creates budgets, tracks your accounts and sends you updates on your balance. The app also automatically searches **for patterns in your spending** and gives suggestions on how to do better. (Pie) charts give you an overview of your **financial situation**.

## 2. For whom and why?

- Mint is interesting for all students. The transition to higher education is often not easy and can be accompanied by all kinds of practical difficulties, such as **budget management**. An app like Mint can provide support for students.

## 3. How does it work?

- Mint works semi-automatically and gives you an overview of your budget management by linking your bank accounts. Of course you can also input information yourself without linking to your bank account.

## 4. Pricing

- The use of Mint is **free of charge**.

## 5. Language

- Mint is available in several languages, including English.

## 6. Type and platform

- Mint is an **application**, available for **smartphones** and **tablets** running on **Android** and **iOS**.

## 7. More information?

- More information about Mint can be found on the website.
