

1. Description?

- OurHome** is an app that supports the joint running of the household. The app **distributes household chores** to housemates and uses an integrated shared calendar, shopping lists and reminder messages.

2. For whom and why?

- OurHome is an app that is useful for all students who live with others. The transition to higher education is often not easy. If you also move in with others, it can be – especially at the beginning – difficult to distribute all household chores in a clear way. OurHome supports this.

3. How does it work?

- Share information** | Through OurHome you can share shopping lists, a shared calendar and events with each other.
- Synchronization** | The connected devices will sync with each other each time, so you'll be up-to-date each time.

4. Pricing

- The use of OurHome is **free of charge**.

5. Language

- OurHome is available in English.

6. Type and platform

- OurHome is a **website** and an **application**, available for **smartphones** running on **Android** and **iOS**.

7. More information?

- [More information about OurHome can be found on the website.](#)
