

1. Description?

- ReadSpeaker TextAid is **compensatory (reading) software** and provides support to people with dyslexia or other reading and spelling problems with, among other things, word prediction, text-to-speech and spell checker.

2. For whom and why?

- ReadSpeaker TextAid can be used from the start of reading and writing education to support reading, learning, writing and studying.

3. How does it work?

- ReadSpeaker TextAid supports students by converting learning materials into audio files. With a click on the read button, users can listen to any text through its **audio version**. The text that is read at loud, is highlighted on the screen.
- A number of functionalities of the tool are:
 - The reading speed can be adjusted;
 - Texts can be heard in different languages, such as English, German, French and Spanish;
 - The reading ruler or screen masking allows the user to concentrate better on the text;
 - Word prediction, dictionary and spell checker are provided;
 - Texts can be downloaded as mp3 files.
- In addition, textbooks are available at Dedicon. They can be uploaded in TextAid, allowing textbooks to be opened and read on all devices.
- Finally, the tool is completely cloud-based, so that no software has to be installed. This allows the user to login to his personal account and get started anytime, anywhere and on any online device.

4. Pricing

- ReadSpeaker TextAid is available by **subscription**.

5. Language

- ReadSpeaker TextAid is available in multiple languages, including Dutch and English.

6. Type and platform

- ReadSpeaker TextAid is a **cloud-based tool**, available for the computer, tablet and smartphone.
